

Come hear Dr. Rich Gardner's presentation this Sunday evening (August 7) at 6 pm. This past spring Rich and others from Firm Foundation in Christ Ministries spent 7 weeks in Nigeria, Cameroon, and Ethiopia training church leaders how to follow up new believers and leading 2 conferences on the True Gospel. After an abbreviated service at Faith Church, he's planning to update us on how this "Spring Training" went. He's also planning to give us an idea of what a training seminar is like by spending a few minutes working through Chapter 5 of our Follow Up booklet on prayer. This is a joint service with the OPC's churches in Bellmawr, Mantua, Pennsville, and West Collingswood attending

The purpose of FFICM is to help new believers build a foundation for their faith—a foundation that is firm because it is based on a strong relationship with Christ. Their vision is to ground believers in their faith so that they will have a lifelong, active faith in Jesus Christ. FFICM trains national pastors, church leaders, and church members in evangelism and follow-up so that the people who come to Christ through their ministry will be established in lifelong discipleship. They train until not only the information is understood, but trainees can confidently lead a group of new believers towards the development of their faith in Christ.
